TECHNICAL SKILLS

Programming Languages: Python-3, C++ ,Java, Sql (SQLITE,MY-SQL), Javascript Html/Css, Bash
Web Frameworks: React Js , Node Js, Next Js , Express Js ,Django, Tailwind,Redux
Other Frameworks : React Native,Selenium, Django-Ninja ,Mongo Db,Pyqt, Matplotlib,Nginx
Libraries Beautifull Soup ,Requests ,Mongo DB,Pandas,Arduino.H, Pyrogram, Python Os Module , Python Socket,
Tkinter , Pynput, Cryptography.Fernet , Smtplib ,Pyautogui, Openpyxl,Pyperclip , Colorama
Other tools/Linux tools :Git, ,AWS ,SSH, CronTab , Tar, Apache2,Curl, Wget,Jupyter Notebook ,Vs Code ,Vim
CyberSecurity Tools/Debian based Tools: Aircrack-Ng Suite,Nmap,MetaSploit,Burp Suite
,Fluxion,Hashcat,SQLmap ,Wireshark,EtterCap, SocialEngineering Toolkit

EXPERIENCE

Project Developer   Sep.2023 – April 2024
AICTE IDEALAB   *BHOPAL, MP*

- Developed a fully functional, responsive full-stack website using **Next.js Tailwind** , providing a seamless user experience.
- - Implemented an intuitive and efficient admin panel, with keeping **Web Security(CSRF,JWT)** in mind ,enhancing the website's management capabilities.
- -Utilized version control systems, such as **Git**, to track and manage project .
- -Used **Mongo DB** as a backend to store data on **Atlas server** and used **Rest Api** to integrate systems.

Frontend Developer   April. 2023 – Sept 2023
KLIC KALCHURI INCUBATION CENTER   *BHOPAL ,MP*

- -Implemented a dashboard application using **MERN** stack
- -Developed **5+** frontend websites using **HTML/CSS JavaScript,React**
- - Implemented **responsive web design** techniques to ensure compatibility and optimal viewing experience on **mobile devices**.
- -Work closely under **Apeiro medica** in Dare to start program and Collaborated with cross-functional teams, including designers and backend developers,

PROJECTS

Social V | *JavaScript, CSS , React, State Management, Node Js,git*   Visit live

- ∗ A social media website built using React, Express leveraging JavaScript for dynamic content rendering.
- ∗ The application employs state management with React Router enables seamless navigation

ProofReading-Report-Helper | *Python3, PyAuto Gui,Pynput ,Pyperclip,Openpyxl , Git*   OCT 2021 – May 2022

- ∗ Report Helper is a CLI tool developed in Python that streamlines proofreading tasks.
- ∗ Used by more than 25+ junior level data operators it decrease their time by **15 min to 1 min**
- ∗ It handle Excel file operations, it extracts specified questions and maps them to the Ctrl+M key for quick insertion.

Server based Keylogger | *Python3, Pynput , Smptplib, OS module, Node Js*   Visit live

- ∗ This python based keylogger virus is designed to operate undetectably, capturing keystrokes
- ∗ It logs all user input in real-time and transmits the data to a Go-based file server
- ∗ and that go server link is sent to a specified email address ,so it could remain untracebale

EDUCATION

LNCT Group of Colleges -[LNCTE]   Bhopal, MP
Bachelor of Technology in Computer Science   *Nov 2022 – July 2026*
